

DATA PROTECTION ACT

We will collect certain information about individuals within or connected to your company and any subsidiaries ("data subjects") in the course of considering your application and, if we issue a policy, in conducting our relationship with you. This information will be processed for the purpose of underwriting your insurance coverage, managing any policy issued, providing risk management advice and administering claims. We may pass the information to our reinsurers, legal advisers, loss adjusters or agents for these and other purposes. This may involve its transfer to countries which do not have data protection laws.

Some of the information we collect may be classified as 'sensitive' - that is, information about disciplinary proceedings, convictions, sentences or alleged criminal activities. Data protection laws impose specific conditions in relation to sensitive information including, in some circumstances, the need to obtain the explicit consent of data subjects before we process the information. Data subjects have a right of access to, and correction of, information that we hold about them. If they would like to exercise either of these rights, they should contact our Data Protection Compliance Officer at 60 Gracechurch Street, London EC3V 0HR.

By signing this proposal form you confirm the consent of the data subjects to the processing and transfer of information (including sensitive information) described in this notice, and that you have taken all steps necessary to inform them of our processing and your disclosure of information to us for the purposes described above. Without this consent and your confirmation of these matters, we would not be able to consider your application.
